YISD Public Information Request Guidelines

Making a Request. The request must be submitted in writing and must ask for records or information already in existence. The Act does not require a governmental body to create new information, to do legal research, or to answer questions.

Charges to the Requestor. A person may ask to view the information, get copies of the information or both. If a request is for copies of information, the governmental body may charge for the copies. If a request is only for an opportunity to inspect information, then usually the governmental body may not impose a charge on the requestor. However, under certain limited circumstances a governmental body may impose a charge for access to information.

Responsibilities of Requestors.

All people who request public information have the responsibility to:

- Submit a written request according to a governmental body's reasonable procedures
- Include enough description and detail of the requested information so the governmental body can accurately identify and locate the requested items
- Cooperate with the governmental body's reasonable requests to clarify the type or amount of information requested
