	JROTC	JROTC I, JROTC II, JROTC III, and JROTC IV.
SCIENCE, TECHNOLOGY, ENGINEERING, & MATHEMATICS	Engineering	Principles of Applied Engineering; AC/DC Electronics; Digital Electronics; Engineering Design & Problem Solving; Robotics I & II.

SIGNATURE PROGRAM

<p>HEALTHCARE DIAGNOSTICS</p> <p>ENGINEERING ACADEMY</p> <p>HIGH SCHOOL EARLY COLLEGE ACADEMY</p>	<p>The Healthcare Diagnostics - Clinical Laboratory and Research program of study at Ysleta High School introduces students to occupations and educational opportunities related to performing complex medical laboratory tests for the diagnosis, treatment, and prevention of disease. This program of study includes hand-on clinical comprehension and practice of routine diagnostic tests performed in hospitals, clinics, and research laboratories. During their Senior-level coursework students can become certified Phlebotomy Technicians.</p> <p>Work hands-on and learn about the engineering design process. Our academy provides students with the opportunity to investigate career choices in the fields of computer science as well as mechanical, electrical, electronics, and software engineering. Through experiences within the academy, students gain the knowledge and skills necessary to pursue a post-secondary degree in these fields. In addition, students will earn at least 15 hours of college credit as well as industry certifications that will equip them to be successful upon graduation.</p> <p>Earn a degree – tuition FREE! Students will earn their associate degree while in high school. Save on 2 years of college tuition while enjoying a traditional high school experience including athletics, fine arts, academic teams and other extracurricular activities. Only state designated early college students are eligible for the UTEP Accelerated Student Scholarship Program.</p>
