D2210 Theater Arts II

Course Description:

The purpose of this course is to provide the complete experience in theatre, what it takes to develop a show from first thought to the final strike. Activities will be designed so students can learn how to research, act, design, direct, etc. They will learn to explore the purpose of the play and the idea that desires to be expressed. The ultimate goal is to provide students with the complete guided experience, but also to allow them the time and space for self-discovery throughout the process. Where students can be introspective, and focus on themselves, while creating a work of art.
