

THE DISTRICT

March 30, 2020

Dear Matador Family,

We are excited to reach out to you in these times of change and uncertainty. We miss seeing you at school every day and are working hard to make the best of the current situation.

Since you left school, your teachers have dedicated themselves to creating engaging, quality lessons that you can access on **Google Classroom** and complete while you are at home. Even though your online learning won't happen inside a classroom, you **WILL** be able to talk to your teacher through video conferencing using **Google Meet**, which is available on your Google platform (or whatever platform the teachers is using).

Your teachers will be sending you a code so that you can access Google Meet through Google Classroom. Once you've learned to do this, we know it won't be long before you become an expert, and are excited to show your parents what a great job you're doing at navigating the Google platform.

We have enclosed a copy of your schedule and a description of what you can expect in the week ahead as we begin our journey into online learning. We will be with you every step of the way, ready to guide you and your parents in whatever you need to make your instruction engaging, effective, and relevant so that you can successfully master your grade-level standards.

We look forward to connecting with you! Remember to keep practicing healthy habits at home, and enjoy your time at home with family.

Be Glorious and Victorious!

Sincerely,

PHS Administration

Parkland@Home Online Schedule

Time of Day	Monday <i>Meet-ups</i>	Tuesday <i>Content Support</i>	Wednesday <i>Planning</i>	Thursday <i>Content Support</i>	Friday <i>Families</i>
8:30-9:15	Group 1	Social Studies Session	Teacher (PLC) Planning	Math Session	Group 1

2:30-3:15	Group 6	Fine Arts/LOTE Office Hours		CTE/JROTC/PE/Health Office Hours	Group 6
Evening option	Flex				

We are excited to begin online learning on Monday, April 6! This is a copy of your schedule. Please read the description below to understand how your schedule works.

Monday (Student Meet-Up)

Classroom assignments for the week are posted in your Google Classroom. You will also be contacted by your teacher (either through email, Google Meets, or Google Voice) for a “**Monday Meet-Up**.” During this time, you and your teacher will discuss how things are going, and your teacher will share the expectations for the week.

Tuesday (Social Studies, Science & Other)

Tuesday is dedicated to lab hours with your Science and Social Studies teacher(s). If you have any questions, or if you need help in Science and Social Studies, this is time to reach out to your teacher. Your teacher has a Google Meet code that allows you to join him/her in the chat room. Your teacher can either answer your questions, or work with you one-on-one or in small groups. Your teacher can also be contacted through Google Voice or email.

Wednesday (Teacher Planning)

Wednesday is dedicated to teacher planning. Your teacher will be planning lessons for the following week. If you have questions regarding an assignment on this day, please feel free to email your teacher.

Thursday (Math, English Language Arts & Other)

This day is dedicated to lab hours with the English Language Arts teacher and Math teacher. If you have any questions, or if you need help in English and Math, this is time to reach out to your teacher. Your teacher has a Google Meet code that allows you to join him/her in the chat room. Your teacher can either answer your questions, or work with you one-on-one or in small groups. Your teacher can also be contacted through Google Voice or email.

Friday (Family Meet-Up)

This day is dedicated to you and your family. Your teacher can offer suggestions for family activities to do together to highlight the week of learning, or discuss/review the wonderful work you have turned in.
