

How To Chrome Sync

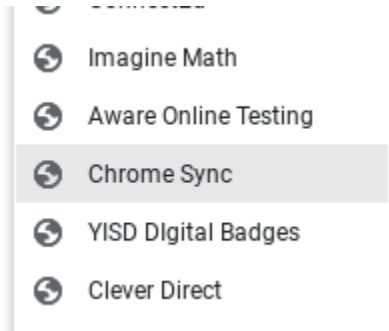

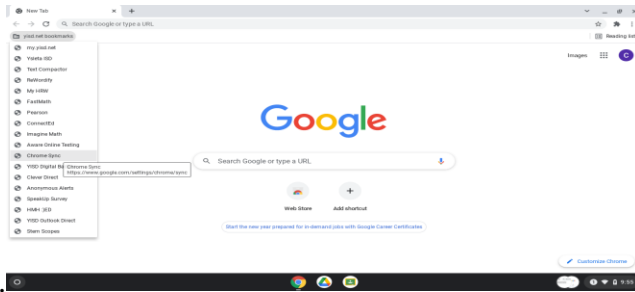

1. Before attempting to chrome sync your chromebook, make sure power cable is plugged in and you have good wifi.
2. Turn on your chromebook and open the chrome browser located at the bottom of your screen.

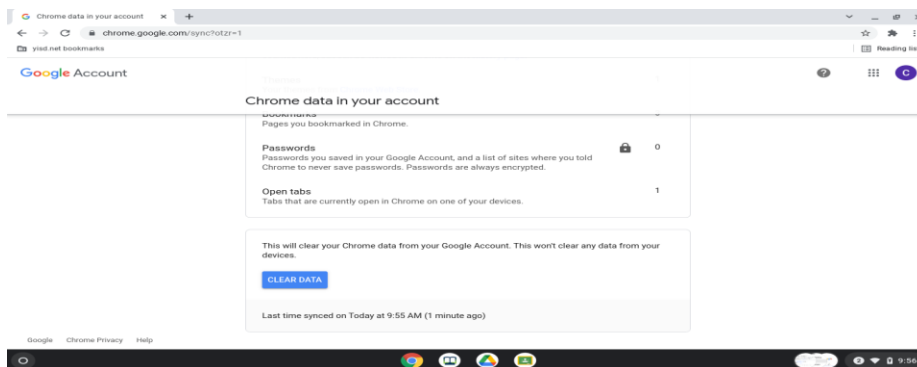

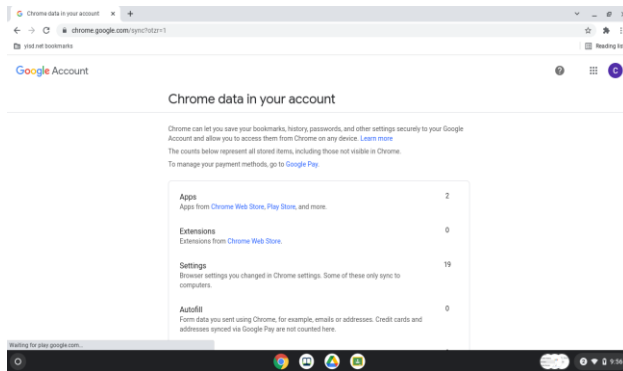

3. Once in the chrome browser, locate and click “yisd.net bookmarks” at the top left of the screen.

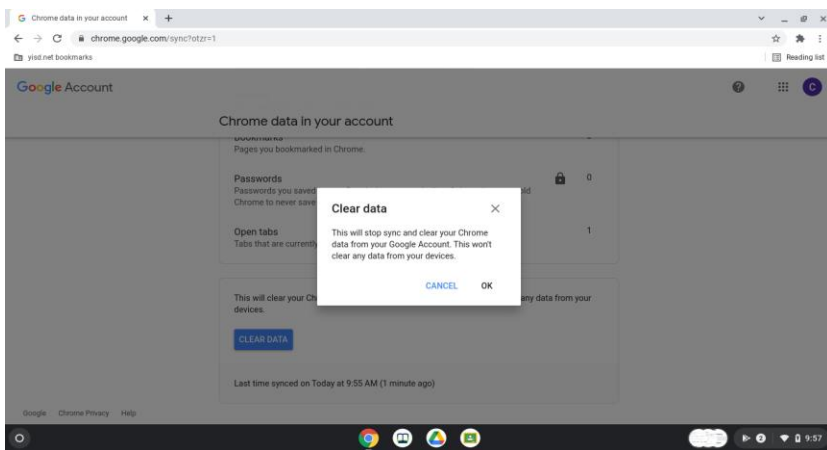

4. Once you click on “yisd.net bookmarks” a list of bookmarks will appear, located and click on “Chrome Sync”

5. You will now be loaded into a new page, scroll all the way to the bottom where you will see a blue button with “CLEAR DATA” on it, click it.

6. A pop-up will appear asking for confirmation, click “ok”.

7. The Chrome Sync is complete, now follow the instructions to Reset Your Chromebook.
