New Safety and Security Standards

As required by TEA New Facility Standards TAC61.1040

- (A) **Exterior door numbering.** All instructional facilities campus-wide, including portable, modular buildings, must include the addition of graphically represented alphanumeric characters on both the interior and exterior of each exterior door location. The characters may be installed on the door, or on at least one door at locations where more than one door leads from the exterior to the same room inside the facility, or on the wall immediately adjacent to or above the door location. Characters shall comply with the IFC, §505. The primary entrance of an instructional facility, as defined by subsection (a)(23)(A) of this section, shall always be the first in the entire sequence and is the only door location that does not require numbering. The numbering sequence shall be clockwise and may be sequenced for the entire campus or for each facility individually. The design professional of record shall coordinate with school district personnel and local emergency response personnel prior to incorporating exterior door numbering characters and locations into the contract documents for the facility or facilities specified to be included in a capital improvement project. The design professional of record shall coordinate this requirement with any and all accessibility requirements related to signage.
- (B) **Visitor management.** All primary entrances of instructional facilities campus-wide must include the following:
 - (i) an unobstructed line of sight of approaching visitors through physical or digital means;
 - (ii) a physical barrier that prevents unassisted access to the facility by a visitor; and
 - (iii) a location for a visitor check-in and check-out process.
- (C) **Security cameras.** All primary and secondary entrances of instructional facilities campus wide must include a security camera. Commissioner's Rules Concerning School Facilities §61.CC. June 2022 Update Page 66 of 66
