

FREE SAT PREP

UWorld

Free online test prep is now available to our students! UWorld online preparation focuses on purposeful practice, individualized learning, and improved performance.

Three things about UWorld test prep:

- Practice with questions that are just like the SAT exam.
- Learn WHY you got an answer wrong and how to get it right next time.
- Don't study things you already know. Focus on what you don't.

Your child will receive login instructions from their teacher and can log into UWorld through Clever.
